The claims review process **MUST** be completed monthly before the submission of the claim for reimbursement. This form may be used or the school can design its own form. This is required to test "reasonableness" of meal counts and to spot potential errors. In multiple-site districts, EACH site must complete the claims review process.

Attendance Factor Comparison

$$\text{Attendance Factor (AF)} = \frac{\text{Average Daily Attendance}}{\text{Enrollment}}$$

Attendance Factor (AF)	Free Eligibles	Estimated number of free eligibles attending daily
X	=	
Attendance Factor (AF)	Reduced-Price Eligibles	Estimated number of reduced price eligibles attending daily
X	=	
Attendance Factor (AF)	Student Claimed in Paid Category	Estimated number of paid students attending daily
X	=	

Compare the daily free, reduced-price and paid meals claimed for the current month to the estimated number of free, reduced-price and paid students attending daily (calculated above).

Potential Problem: Any daily meal count which exceeds the estimated number of eligibles attending daily.
